INTRODUCTION

The main objective of the guidelines in this document is to provide details and elaboration on the requirements of Section 5 in Environment (Reduction of Greenhouse Gases Emission) Ordinance, 2023 (referred thereafter as the "**Ordinance**").

Efforts are made to ensure that this document accurately interprets and covers all requirements and implementations outlined in Section 5 of the Ordinance. However, if there are any unaddressed requirements within the Ordinance, users should seek clarification from the Controller and the Controller's decision shall be final in such matters.

1.0 CITATION AND COMMENCEMENT

These Guidelines shall be read in conjunction with the Ordinance, particularly in relating to registration of business entity undertaking activities in the scheduled economic sectors.

2.0 INTERPRETATION

2.1 In these Guideline:

All words and expressions used or referred to in these Guideline shall have the same meaning as defined in the Ordinance, unless otherwise defined herein or repugnant to the context.

"Authorized Representative" means a person who has been duly authorized by the registered business entity to act on its behalf and serves as the designated individual to coordinate efforts related to the greenhouse gas emissions reporting, as well as acting as the primary contact point for communication with the Board and/or Controller.

"Block" means a specific geographic area that has been granted to a company or consortium for the purpose of exploration, development and production of petroleum resources.

"Board" shall have the same meaning ascribed to it in the Ordinance.

"Business Activity" means any activity or series of activities (including significant ancillary activities) that involves the emission of greenhouse gas from the Facility.

"Business entity" shall have the same meaning ascribed to it in the Ordinance.

"Facility" shall have the same meaning ascribed to it in the Ordinance.

“Foreign Registered Company” means a foreign company (as defined in the Companies Act, 2016) who is registered in Malaysia pursuant to Section 562 of the Companies Act, 2016.

“Non-Production Mode” means the period during which the facility is not in Pre-Production Mode and Production Mode. This phase typically encompasses activities related to planning, exploration, construction and appraisal but does not involve the activity and/or generating the intended products from the facility for commercial purposes.

“Operator” refers to the business entity or person (for sole proprietorship and enterprise) responsible for the operation and has Operational Control of the Facility in any applicable contractual arrangement.

“Operational Control” refers to any business entity which fulfils the criteria stipulated in Paragraph 3.6 these Guidelines.

“Pre-Production Mode” refers to a specific phase during which the Facility undertaking commissioning and testing of the Facility prior to the Production Mode.

“Production Mode” refers to a specific phase during which the Facility undertakes the production of its intended product for commercial purposes.

“Registered business entity” shall have the same meaning ascribed to it in the Ordinance.

3.0 REGISTRATION CONDITIONS

- 3.1 Section 5 (1) of the Ordinance stipulates that all persons or business entities undertaking any of the activities in the scheduled economic sectors, shall within ninety (90) days of the coming into force of this Ordinance register with the Controller in the prescribed form.
- 3.2 The Operator of the Facility undertaking any of the activities belonging to the scheduled economic sectors as outlined below AND are in Pre-Production Mode or Production Mode are required to register with the Controller. For avoidance of doubt, the registered business entity in Pre-Production Mode may not be required to submit a carbon emission report pursuant to Section 6 of the Ordinance but shall update by submitting its development status to the Controller every six months from the date of registration.

3.2.1 Oil and Gas Sector

This sector encompasses any –

- (i) Business relating to exploration, production and processing of petroleum or gas whether onshore or offshore Sarawak and all activities related to carbon capture and storage; or
- (ii) Business relating to processing or refining of petroleum or gas or manufacture of petrochemical products from petroleum which were issued with permit pursuant to Regulation 3A(1) of Petroleum Regulations, 1974; or
- (iii) Business entity granted with license or lease for oil exploration, prospecting and mining for crude oil, petroleum or natural gas upon any land pursuant to Section 33C of the Oil Mining Ordinance, 1958.

3.2.2 Energy Sector

This sector encompasses any:

- (i) Business relating to electric power generation transmission from generating facilities to distribution centers and distribution to end users; or
- (ii) Business granted with licenses pursuant to Section 4(1) of the Electricity Ordinance.

3.2.3 Other Sectors

Such other economic sectors as Majlis Mesyuarat Kerajaan Negeri may determine by notification published in the *Gazette*.

- 3.3 Where the status of a Facility changes from Non-Production Mode to Pre-Production Mode, the Operator of the Facility shall register with the Controller within ninety (90) days from the date of the changes.
- 3.4 In the event of change of Operator at any time, the previous Operator must deregister themselves by submitting the prescribed form to the Controller. The subsequent Operator is required to register with the Controller within ninety (90) days from the date of the changes.
- 3.5 A registered business entity shall always be the Operator of the Facility.
- 3.6 A business entity is said to have operational control over the Facility (including a business activity carried out wholly or partly by an

appointed third party) if the business entity has the full authority to introduce and implement its operating policies at the operation of the Facility. Having operational control does not mean that the business entity necessarily has the authority to make all decisions concerning the operations of a Facility.

- 3.7 Only one business entity should have Operational Control over a Facility at any one time.
- 3.8 If more than one business entity satisfies the requirement stipulated in Paragraph 3.6 above at any one time, the business entity that is named as the Operator for the purposes of these Guidelines is regarded to have operational control over the Facility.
- 3.9 Where a business activity is a series of activities that is carried out at more than one parcel of land, field, area, Block or premise as part of the same commercial arrangement, the business activity is treated for the purpose of these Guidelines as carried out at a single Facility if the same business entity has operational control over the business activities and facilities.
- 3.10 The business entity shall nominate an Authorized Representative to act on its behalf concerning registration as outlined in Section 5 of the Ordinance.

4.0 REGISTRATION

4.1 Registration Procedure

4.1.1 Registration shall be submitted to the Controller using the prescribed form set out in Appendix 1 of these Guidelines. The soft copy of the prescribed form can be downloaded at <http://www.nreb.gov.my>.

4.1.2 The Flowchart for Registration of Business Entity undertaking activities in The Scheduled Economic Sectors is shown in Appendix 2 of these Guidelines.

4.2 Registration Submission

4.2.1 Duly completed prescribed form must be submitted to the Controller either by post or e-mail:

(i)	Postal Address: Controller of Environmental Quality Natural Resources and Environment Board, Sarawak 18th -20th Floor, Menara Pelita, Jalan Tun Abdul Rahman Yakub Petra Jaya, 93050 Kuching, Sarawak Malaysia
(ii)	E-mail Address: webmaster@nreb.gov.my

4.2.2 The following supporting documents must be attached together during the submission of the prescribed form:

- (i) A copy of Company Profile with digital certified true copy by Suruhanjaya Syarikat Malaysia;
- (ii) A copy of license or permit issued by the relevant authorities for the conducted of the business activities belonging to the scheduled economic sectors, or any other documents confirming the appointment of the business entity as the Operator of the Facility;
- (iii) A copy of the facility boundaries map containing the coordinates of the facility in PDF format;
- (iv) A copy of Letter of Authorization or Resolution of the Board of Directors to affects the authorization of the Authorized Representative.

4.2.3 Each prescribed form is limited to only for one (1) business entity but may include more than one (1) facility operated by the same business entity.

4.2.4 The prescribed form must be reviewed for accuracy, signed by an authorized representative, and accompanied by the complete supporting documents.

4.3 Duration of Registration Process

The submission of the prescribed form will be processed within a duration of twenty (20) working days from the day of receipt of the complete prescribed form.

4.4 Registration Validity

The registration shall remain valid from the date of notification of successful registration until the registered business entity deregister themselves by submitting the prescribed form to the Controller. The deregistration may typically encompass the decommissioning of the facilities or the cessation of the operating contract or dissolution of the registered business entity.

4.5 Disclaimers

4.5.1 The Controller reserves the right to request for any additional information from the business entity required for the purpose to process the registration. Failure to provide the requested information within a reasonable timeframe may result in the registered business entity failing to complete registration pursuant to Section 5 of the Ordinance.

4.5.2 Whilst every effort has been taken to ensure accuracy and completeness of the contents of this Guideline, inaccuracies may exist due to change in circumstances and/or amendments due to a change in the policies or prevailing rules or regulations of the governing authorities.
